The partners discussed the future tasks concerning Chapter 2&3 and decided on the deadlines for them. The discussion points were :How to create the annexes to the Guide , how to use results and good practices examples from other organizations and projects developed and published all over the World.

The partners agreed that they can share good practice examples which are compatible with their kind of work.

AGREEMENTS	RESPONSIBLE/DEADLINE
Completion of Chapter 2	April 2016,All
Completion of Chapter 3	May 2016,All
Completion of the Annexes(I,II,III)	The end of June,2016
Making videos of the examples of the two good practices	June 2016
Creating dissemination instruments	ERA Association ,June ,2016

i.How to create annexes:

The moderator of the meeting reminded the partners that :

ANNEX 1 will contain:

A. legislation and specific conditions/country

A study will be done in each participating country in the preparation phase for the guide creation. The study results will contain:

-information about laws and regulations on entrepreneurial activities .(With links to the relevant websites)

-European Commission's recommendations for each country , government politics on entrepreneurial development.(With links to the relevant websites)

All demographical and background analyses presented in the first meeting from each country will be added into Annex 1. ✓

At this point,the moderator presented the doc "data compilation finish"to the participants

- The legal steps that have to be made for starting an entrepreneurial activity in each country.

The partners will collect data about this topic and put them in this part of Annex 1.✓

The partners decided that this part of Annex I was already completed by all the partners in Part A of Chapter 1.

ii. Annex 2 Good practices examples & virtual labs

The moderator read the contents of Annex 2 at this point to remind all partners of their tasks:

-Local learning activities will be also organized as practical applications of the curriculum in virtual laboratories or in real practical environments. The results of this activities will be also published in the guide as good practices examples.

-Experiments will be realized with the learners in the virtual laboratory and in real practical environments. This experiments will give us the possibility of real time evaluation on know-how and practices that will become in our guide good practices examples, learning activities on our learning platform.

- The examples will be added here as movies that demonstrates how to do the know-how examples added in chapter 2.

iii. Annex 3 Dissemination Instruments

A Power point presentation will be created, small flyers, a project brochure and a wallpaper that will be also attached in the end of the guide as free resources for the organizations that will want to organize learning activities starting from our guide.

The partner Era Association is responsible for this part

11.15-12.15

The discussion and info-sharing about the topics below went on:

How to create annexes , how to use results and good practices examples from other organizations and projects developed and published all over the World.

How shall the partnership use the results and good practice examples presented by other organisations&projects developed&published all over the world?

12.15-12.45

The hosting organisation delivered the certificates of attendance to the participants. The partners were reminded of the date&venue of the next project meeting : 27-28 September 2016, Tallinn, Estonia.

14.00- 17.00

Sightseeing program by KOGED&Izmit Municipality:

The participants were invited to a day trip across Izmit organised jointly by the hosting company and Izmit Municipality. The partners had the chance to see the attraction points around Izmit such as the old Sirri Pasha mansion, a silk carpet-weaving workshop, recreation park up the hills, etc

Thursday, 28 April Departure of the participants
